SUMMARY

Full-stack Developer with experience building, deploying, and maintaining **scalable web and mobile applications** backed by robust **AWS cloud architectures** for global user bases. Demonstrated ability to meet tight deadlines while contributing to **team leadership**, operational coordination, and **cross-functional collaboration**. Experienced in gathering and clarifying product requirements through stakeholder discussions and supporting product demonstrations. Hands-on experience across diverse domains, including **OTT platforms**, **social media applications**, **Agentic AI Apps powered by LangGraph and OpenAI**, **e-commerce systems**, and specialized products such as **GIS-based marketplace applications**.

SKILLS

Flutter, React, Next.js, LangGraph, LangChain, OpenAI, Python, Fastapi, TypeScript, Node.js, Java, SQL, RESTful APIs, Microservices, AWS (EC2, S3, Lambda, RDS, CloudFront), Git, CI/CD Pipelines, Docker

WORK EXPERIENCE

Sunyam Software LLP

Senior Full-Stack Engineer

Aug 2019 – Nov 2025

- Engineered and deployed full-stack web and mobile applications using React, Next.js, Flutter, and Node.js, serving millions of users globally with zero-downtime deployments.
- Architected and optimized AWS cloud infrastructure (EC2, S3, Lambda, RDS, CloudFront) ensuring 99.9% uptime, 40% reduction in latency, and cost-efficient scaling.
- Built and productionized AI solutions by training image detection models and developing agentic applications with LangGraph and OpenAI APIs, driving intelligent automation and improving system capabilities across use cases.
- Designed and implemented robust CI/CD pipelines using Git and automated deployment tools, reducing release cycles by 60% and improving team productivity.
- Mentored 5+ junior engineers on best practices in full-stack development, system design, and cloud architecture while maintaining code quality standards.
- Led technical discussions with stakeholders to gather requirements, provide technical feasibility assessments, and deliver product demonstrations.
- Optimized database queries in SQL, implemented caching strategies, and managed microservices architecture across distributed systems.

EDUCATION

2025 - 2026 Backend Engineering Launchpad **Airtribe**

2016 - 2019 Bachelor's Degree at Commerce **Calcutta University**

2014 - 2016 Higher Secondary Certificate **The Maharashtra State Board**
